

Nütrops Swipe File — Statics & Videos by Stage

Multiple ready-to-model options per stage · static-first so you can ship image ads today · all from Nütrops' live mom-targeted account · 2026-07-27

HOW TO USE THIS — FASTEST PATH TO LIVE ADS

- **Start with the ⚡ STATICS.** Each has a thumbnail of the real ad, the full copy, and a "rebuild in ~X min" note. Recreate the layout in Canva, swap the copy to Fairy Flame's voice (the orange line), ship.
- **Then layer in 🎬 VIDEOS** when you have talent/time — the copy + a one-line shoot note is on each.
- **Two stages have no Nütrops static** (Social proof, Lifestyle/Identity — they run those as video only). For those I give you a **build-it static recipe** — the easiest statics of all to make (text on a photo).
- **Match each ad to its lander** (slug shown) — the ad hook and the page hero should say the same thing.

Fairy Flame guardrails baked into every rewrite: real proof only (Jordan T. / Maya S.), no invented review counts; actives stay general ("microdose gummies"); banned words = wellness, journey, holistic.

Testimonial quote card

STATIC — BUILD IT · no direct Nütrops static (they run this as video only)

WHAT IT IS A customer quote on a clean background with name + 5 stars. The single easiest static to make.

COPY TO USE "I feel like myself again — focused, creative, and calm. Two weeks in, I notice the difference every morning." — Jordan T.

⚡ **Rebuild:** Quote + name + stars over a solid brand-color card or a soft portrait. ~5 min in Canva.

Fairy Flame: Use ONLY our real quotes (Jordan T., Maya S.). No review counts or ratings until real data exists.

"Screenshot" review card

STATIC — BUILD IT · no direct Nütrops static (they run this as video only)

WHAT IT IS A styled mock of a text/review message — reads as authentic word-of-mouth.

COPY TO USE Maya S.: "the first thing that's helped my anxiety without making me feel sedated or disconnected."

⚡ **Rebuild:** Message-bubble template over a phone frame. ~10 min.

Fairy Flame: Keep it to real testimonials; pair with our lab-report/COA trust line they can't match.

VIDEO "Are you running on empty?" UGC cluster

PRIMARY It wasn't more caffeine I needed. It was a better routine... I feel more focused and honestly, more like myself.

51 days live · [/first-order](#) · <https://www.facebook.com/ads/library/?id=27276355212005316>

Shoot: 45–55 woman testimonial: failed-fixes → "feel like myself again" → unprompted "my husband/kids noticed." Our Script 02/03 almost verbatim.

5 Lifestyle / Identity

Job: sell the self-image, not the product. "Permission to have one thing that's yours."

⚡ **STATICS — BUILD THESE (NO NÜTROPS STATIC EXISTS)**

Identity statement card

STATIC — BUILD IT · no direct Nütrops static (they run this as video only)

WHAT IT IS One emotional identity line as large type over a warm lifestyle photo (mom laughing with kids). Zero product.

COPY TO USE "You manage everything for everyone. What if one thing was just for you?"

⚡ **Rebuild:** Big serif quote over a warm at-home photo, small logo corner. ~10 min.

Fairy Flame: "My family got their mom back — and I got ME back." Over her singing in the kitchen / laughing with the kids.

build-it
recipe

Before/After identity card

STATIC — BUILD IT · no direct Nütrops static (they run this as video only)

WHAT IT IS Two-panel photo static: "watching life through glass" → "present again." Text carries the transformation.

COPY TO USE Left: "I was fading and couldn't stop it." Right: "I feel like myself again."

⚡ **Rebuild:** Two stacked photos + one line each. ~15 min.

Fairy Flame: Pull the arc straight from the burned-out-mom avatar doc: fading → present. Keep it observable, never a diagnosis.

VIDEOS

VIDEO "One thing just for you" (identity)

PRIMARY You manage everything for everyone. What if one thing was just for you? ❤️

52 days live · /working-moms · <https://www.facebook.com/ads/library/?id=1694964281442524>

Shoot: Lifestyle b-roll of her day → the quiet moment that's hers (the gummy). Warm VO or text-only.

Note: this is our strongest ground and Nütrops runs it hard as video. A static version (recipe above) is worth testing since they never made one — potential white space.

6 Offer / Value

Job: land the deal on a warmed-up reader — value/potency first, then the discount. Statics close best here.

VIDEOS

Offers are where Nütrops leans **static** — their offer message rides on DCO video via the locked "Save up to 52%" headline rather than dedicated offer videos. Recommendation: run the 3 statics above and let your best **Outcome** video carry the "Save 52%" headline overlay, matching their DCO approach.
